[battenfeld-cincinnati welcomes the appointment of Dr. Henning Stieglitz to the VDI Strategic Circle for Plastic Engineering](#)

Global extrusion industry leader battenfeld-cincinnati is thrilled to announce the inclusion of Dr. Henning Stieglitz, Managing Director and CTO of BC Extrusion Holding GmbH, in the VDI Plastics Technology Strategy Group at the Fall Symposium in Dresden

battenfeld-cincinnati, the global leader in extrusion and process technologies for the plastics industry, is pleased to announce the inclusion of Dr. Henning Stieglitz, Managing Director and CTO of BC Extrusion Holding GmbH, in the VDI Strategic Circle for Plastic Engineering. This honor was conferred during the Autumn Symposium of the Strategic Circle in Dresden.

Dr. Henning Stieglitz was appointed as the 49th member of the VDI Strategic Circle for Plastic Engineering in recognition of his extensive expertise in the field of extrusion technology. In his laudation Torsten Ratzmann acknowledged Dr. Henning Stieglitz's contributions.

In the year 2000, Dr. Henning Stieglitz began his industrial career and joined in 2008 Battenfeld Extrusionstechnik in Bad Oeynhausen, initially taking responsibility for the areas of design and development, as well as one of the three product groups. In the following years, he held various positions within the newly structured corporate group of battenfeld-cincinnati. Since mid-2015, he has been the Chief Technical Officer of the group and one of the two managing directors of BC Extrusion Holding GmbH.

The official appointment of Dr. Henning Stieglitz to the VDI Strategic Circle for Plastic Engineering took place in Dresden in September 2023 as part of a symbolic ceremony. The board of the VDI Strategic Circle for Plastic Engineering, consisting of renowned individuals such as Prof. Dr.-Ing. Christian Hopmann (Institute of Plastics Processing at RWTH Aachen University), Kurt Gebert (Allod Werkstoff GmbH & Co. KG), Torsten Ratzmann (Egeplast International GmbH), and

Dr. Stephanie Waschbüsch (wdk Wirtschaftsverband der deutschen Kautschukindustrie e.V.), presented the honor.

The VDI Strategic Circle for Plastic Engineering is an important specialist committee within the VDI Society for Materials Engineering's Plastics Engineering department. Its main goal is to analyze and develop relevant trends in society, economics, research, and education, as well as to promote networking in the field of plastic engineering. The members of the Strategic Circle, known as the "Knights of Plastic Engineering," are leading figures in the plastics industry and science. The VDI Strategic Circle for Plastic Engineering was established in Bamberg in 1972.

About battenfeld-cincinnati:

battenfeld-cincinnati is a leading manufacturer of energy-efficient and high-performance extruders and complete extrusion lines according to customer-specific requirements. battenfeld-cincinnati offers tailor-made solutions for a wide range of applications in the field of pipe, profile, sheet, thermoforming sheet and pelletizing from a large portfolio of single- and twin-screw extruders, dies, downstream equipment, calanders and calander feeders.

Customers are served by production sites in Germany, Austria, China and the USA, as well as a comprehensive global sales and service network.
